

Sunday - Hack Day and Workshops

We're changing the venue on Sunday, away from the green of the campus to the somewhat smaller inner-city university location in Amalienstraße. Here, we have one auditorium and a couple of classrooms at our disposal. Four workshops of about one hour each will take place during the day (starting at 10:00, 11:00, 14:00, and 15:00), and there will be ample room for hacking on your favourite OSM project.

Hot and cold beverages will be provided, but you're on your own for lunch - grab a Kebab next door, go for pizza, or sit outside at the vibrant Ludwigsplatz down the road (see map on opposite page). There's also an ice cream parlour just outside the building, or you could order pizza from Kai's (www.kais-pizza.de).
